trifecta®

Tech-enabled, barista-crafted single cup brewer that heightens the quality of coffee and tea

TRIFECTA BREWING PHASES

Wetting: The saturation of the coffee grounds and specialty loose leaf tea can be controlled to get the percentage of water and pause appropriate for the selected varieties.

Extraction: Air is injected into the chamber so that the grounds are agitated using Air Infusion technology. The result: uniformity of extraction and a complex beverage complex beverage that coffee and tea enthusiasts will enjoy.

Hydrolysis: Air presses the beverage through a permanent metal screen that filters out coffee grounds or tea leaves while preserving oils and aromatics for a deep-bodied, unique flavor experience.

COLD BREW & ICED COFFEE

Nitron₂® Cold Draft (Removable Graphic Door)

Nitron₂® Cold Draft Deliver nitro coffee and authentic cold brew taste without

the need for a complex or lengthy brewing process

Achieve a nitro infusion with no kegs to change-out, store, clean, or sanitize. Uses two 1gal (3.8L) concentrate BIBs or BUNN refillable containers (for Ball-valve models) or two .5 gal (1.9L) concentrate BIBs (for Scholle models) that staff are already familiar with and each BIB yields multiple gallons of finished drinks

The Nitro Experience: No milk or sugar needed! BUNN's patented in-line gas infuser produces up to 3 minutes of cascading micro-bubbles*, resulting in a nitro cold brew crowned with a smooth, silky stout-like head that tastes distinctively creamy with a velvety soft mouthfeel.

Outfit the standard and nitro taps with separate beverages your choice of cold brew coffee, iced coffee, or iced tea - all from one slim, 10-inch wide countertop design

At a rate of one 16oz drink per minute, can dispense 60 drinks before exceeding 41°F
