

Garland Grill Shutdown Procedure	
1	Complete a weekly clean as per cleaning card GR 3 W1
2	On completion of the weekly clean ensuring the grill plate is cool, apply a thin layer of clean vegetable oil evenly over the grill plate (<i>this is to prevent potential rust</i>)
3	Do not reinstall Teflon's, wash as normal and store in suitable location
4	Lower the platens by activating the green button
5	Switch off the grill using the grill power switch

Garland Grill Start-up Procedure	
1	Clean oil from grill plate
2	Ensure grill is clean and ready for use
3	Reinstall Teflon's
4	Commence Pre-Heat as normal
